

Try picking someone up before you go out.

Share a ride with a friend. It's nice to have a co-pilot, plus you'll save money and the air.

Ride sharing is a great way to make driving more enjoyable, whether you're going out on the town or going to work. You'll save money, too. Sharing a ride with just one other person can cut your commute costs in half. And if all drivers doubled up, it would cut traffic congestion and pollution substantially. That could eliminate millions of pounds of pollutants from the air each year. So keep it up because—

It all adds up to cleaner air
